

WE ALL PAY OUR FAIR SHARE OF PROPERTY TAXES.

SHOULDN'T SHE?

McNamara

**DOWN
\$94,000**

Do some elected officials and political insiders get preferential treatment with their property taxes? Just look at State Representative Wendy McNamara.

Since Wendy McNamara became an elected State Representative, her annual property tax assessment dropped \$94,000, resulting in a reduction in her actual tax bill of more than \$700.¹

And the best part for McNamara? She didn't even have to appear before the local property tax appeal board. It makes you wonder if simply being an elected official or political insider is reason enough for the Posey County Republican Assessor to alter assessment and payment amounts?
