She had no visible injuries and her clothing was intact and I asked her several times if they guys had done anything to her and she was confident in her answer that they had not hurt her in any way, they had just abandoned her "in the woods". She complained that her feet hurt her and she had trouble walking and she complained about being cold. She was cooperative but obviously disoriented, unable to tell me where she lives or who she lives with - she said she had only lived there for a day and didn't know the names of the subjects there and that it was "by the liquor store near the bridge". When I got her secured in my car, I asked her if she thought she needed to go to the hospital because of what she smoked and she said that she did. I called for AMR and while waiting, she went through bouts of sleeping, shivering, and complaining that her chest was burning and her feet were still hurting. AMR # 0985 took her for medical treatment.</p>	(C)	WINTERS, K. L.
