<i>Incident Rpt Misc</i>	I was driving marked car 6-21, east bound on Diamond Ave during my course of duty. I was enroute to a dispatched run and was approaching Heidelbach Ave. I was in the center lane following another vehicle in traffic. As we got really close to the intersection, the car in front of me swerved. I slowed down to see what that action was for and saw a man hole cover in the roadway. It had recently rained very hard for a short time and this may have led to the man hole cover being up. As I swerved to avoid the manhole cover, I partially hit the open manhole and the man hole cover went under my car. I am not sure if the man hole cover hit anything on the undercarriage of the car. I notified Sgt. Walters when I finished the initial part of my dispatched run of this possible damage. I did a visual inspection of the car and did not see any obvious damage and no fluids were leaking. The car sounds the same as before this incident while idling, but the exhaust sounds a bit rougher while driving.		
	I will monitor the vehicle as to fluids, the temperature and the driving behavior until I can have Muensterman`s personnel look at the vehicle.
