Reported: 07/15/2015.</p> <p>On 071515 I [SeDoris] was dispatched to 1000-611 Fulton Pkwy in reference to the OF calling dispatch stating that someone was trying to kill her. She told dispatch she thinks someone wants to "shoot her up".</p> <p>Officer have been called there five times in the past three days for similar runs and have been called there ten times in the months of June and July. Yesterday [071415] officers were called for a run that was identical to this run and another stating someone was talking about breaking in her door. On a few of the occasions she has stated shots have been fired or someone was trying to break in, causing officers to run code to these runs, to find out these were false accusations. The people "breaking in" were people knocking on her door. The "shootings" were completely unfounded or were fireworks, and she was explained that they were fireworks, but continued to call. She has been warned on several occasions to stop calling 911 and giving false information.</p> <p>Today she stated she thought that people were going to "shoot her up" because people were down stairs in the lobby.</p> <p>In RMS it shows that she is EDP and has the following alert:</p> <p>"Repeatedly calls dispatch stating that someone is trying to kill her and that she has a monitor to keep track on going on. (The monitor is her sticking her head out her door) She has called dispatch so many times that they are reluctant to send officer`s to her house. She has a history of making false reports and has stated she had to go to Motel 6 to get away from them and then called and said they were going there to shoot her. There is an attempt to get Adult Protective Services involved at this time.[06/19/2013 20:20, SMITCHELL, 872, EPD]"</p> <p>She was informed today that a report was going to be filed and that she was only to use 911 for a real emergency, not for people knocking on the door or people being downstairs in the lobby. I explained that her calling these runs in causes officers to run code to respond and puts our lives as well as the general public`s lives in danger, and that it also ties up officers from dealing with real runs.</p>		SEBORIS, S.
