Around 1200 hrs he was again contacted about the front window being broken out at his store. When Zaidan arrived, he observed the large front window had been shattered with a brick and numerous items taken from his store. Zaidan stated that when he checked the circuit box in the rear of the complex (located outside and easily accessible) that the power to his store had obviously been manually shut off and that it was NOT a problem with Vectren. Zaidan believes that the suspect(s) shut off the power from outside the building to defeat the alarm system and video surveillance system. Then, after Zaidan responded and subsequently left the building around 0400 hrs, they smashed the front window to gain access and made off with numerous items. The VI also advised that \$150 of petty cash had been taken from the cash register. The power to Inner City Sports &amp; T's was also manually shut off from outside the complex but did not have any other signs of forced entry or suspicious activity.
