Another vehicle, possibly a black or Green SUV of an unknown make and model, was also north bound and behind the IO. Both vehicle were in the inside lane. Just as the IO was switching to the outside lane the SUV also switched lanes to pass them. The suv rear ended the IO causing heavy damage to the rear of the vehicle. The SUV stopped for a second and then took off at a high rate of speed. The IO and her passengers were not injured.</p> <p>Most of the information about the hit &amp; run was provided by the witness who was behind both vehicles. The IO did not speak much English at all. Her passengers were a small child and another adult female but neither of them spoke any English at all and I was unable to get their info. They requested the car be towed to Mills Body Shop. I was unable to get any phone numbers for the IO or the vehicles owner but do have what I think are good addresses. The IO was cited for never having received a license(UTT# 8220110733). The insurance information was supposed to be in the glove box but we were unable to get it open.</p> <p>The only information anyone could provide about the Suspect vehicle was it was a dark SUV of some type.
