When I arrived, the VI (France) stated that she had been taken to the hospital early Saturday morning . While she was in the hospital, she contacted the IO (Hart) in order to have the Hart go to her apartment and feed her cat since France was going to be in the hospital for a few days. France was released on 6/19/2017 and again called the Hart to pick her up from the hospital but the Hart was not able to do so. Hart stated that his nephew (OF) could pick her up if he could use France`s vehicle. The OF then met France at the hospital and picked up the keys for France`s vehicle (which also had a house key on the same key ring as the car key). Today, France and Johnson noticed that the vacuum and prescription pills were missing. Hart has cared off/on for France for a a while with nothing like this happening, so France suspects the OF. Several items of value were left in the residence. Johnson knows for a fact that the vacuum was in the residence as of 6/17/2017 because she personally used it and put it back in the closet next to the cat food that should have been accessed by Hart. There was no signs of forced entry. France was provided a case number.</p>		ROSS, K. R.
