On scene, I identified the shoplifter via her IN ID, and I spoke with the loss prevention officer about what he observed. He stated he watched the suspect select a cart full of merchandise, but noticed with alot of the clothing items, she was not putting them in the main storage part of the cart but rather placing them in the part where a child would sit. The suspect then covered up those clothing items with her coat and purse by placing them on top of the items. Then the suspect selected some more clothing items, and placed those on top of her coat. Finally, the suspect went through a check out line, and paid for all the merchandise in the front of the cart. She told the cashier she had some other items, those being the clothes, that she would like to put on hold so that she could come back at a later time and buy them. The cashier pointed her in the direction of the service counter, and told her she could do that there. The suspect pushed her cart to the service counter, where there was a lengthy line. While waiting in the line, the suspect decided to put some stationary back on the shelf instead of placing it on hold with the rest of the clothing items. After doing this, instead of returning to the line at the service counter, the suspect pushed the cart, with the unpaid clothes in it, out the exit doors. That`s when loss prevention stopped her. She told them she got distracted by texts she was getting as she was putting the stationary up, and then forgot what she was originally doing at the service counter. The clothes were recovered by loss prevention. I told the suspect she was now barred from all Target locations. I issued her a citation, and made her leave Target`s property.</p>		HELM, J. E.
