- b. Install a “Handicap” parking space for general use on the Northside of Bismark Ave, west of Mt. Auburn Road in the first parking space past the no parking yellow curb. Very hilly area that does not provide good access for “Handicap” individuals. This parking space is smoother and should provide better “Handicap” access.

Shared concrete driveway and shared garage at the end of it.

The neighbor, which shares the drive and garage, has an on-street “Handicap” space, which was approved at some point in the past. I believe this is because they could not leave their vehicle in the driveway due to the sharing. Due to their health conditions, this would make the access to their homes at an unreasonable distance with difficult terrain from the rear garage.

b. 1401 S. Harlan Ave – Laura J. Clark

This property appears to qualify for an on-street “Handicap” parking space, provided all criteria has been met.

Has rear parking at the end of an alley, which makes it difficult to access their house due to the rough terrain.

c. 1160 S. Bedford Ave – Kevin & Lecha Cleve

This property appears to qualify for an on-street “Handicap” parking space, provided all criteria has been met.

Has no off-street parking and has ample room to install an on-street “Handicap” space.

B. Parking Permit

1. David Murphy requests approval of a parking permit for a moving truck on Monday, July 30th, 2018 and Tuesday, July 31st, 2018 at 508 Main Street (Unit 4G).
