Reported: 02/26/2019.</p> <p>The Victim called to report that her front door and the front of her apartment had been egged sometime over night. This is the second time in the last week her apartment has been egged(previous case #19-03666). Both times her apartment was the only one egged. There were too many eggshells on the outside of her door and surrounding area to tell exactly how many there were. Most of the egg residue had dried on the door by the time it was found. There was also egg inside the apartment on the wall, floor, and some on the couch. The door was closed but the egg whites and yokes went through the gaps around the door. The Victim believes the same individual as last time is responsible. After that incident she texted the person who she believed had done it and asked her. She denied doing it but stated she knew who did. The Victim has this text message saved. It is unknown at this time how much if any damage was caused by the egging.</p>		GREEN, R. E.
