

NEWS RELEASE OCTOBER 28, 2019

PUBLIC COMMENT FOR THE October 28, 2019 MEETING OF THE EVSC SCHOOL BOARD

I will be appearing at the EVSC School Board Meeting this evening to find out why the Board refuses to place me on their agenda to discuss very pressing issues like the ongoing failure of schools to meet an accountability for educating the underserved community including their refusal to provide how funds are divided among the schools. The focus on top heavy salaries and neglect of under served neighborhoods. The damage that a failure to adopt an anti-nepotism policy has on the overall atmosphere within the corporation. I will discuss the apparent failure to follow their own By Laws and Policies including the ongoing violation of the spirit of the purpose to conduct executive sessions. I will be at the meeting tonight to appear in the three minute time slot allotted for difficult issues to address some of these matters as a beginning to a much longer examination that should be addressed by the Corporation if any real change will occur for those most in need of the assistance of education.
