

As a Vanderburgh County Commissioner, I find myself managing a host of different issues, most totally unrelated to each other: such as zonings, drainage, roads, health insurance, board appointments, public safety, etc. I believe citizens want a commissioner who will handle each issue in the manner that is best for the community as a whole. I believe citizens want a commissioner who is not led by “group think” or politics. The community needs commissioners who gather as much information as possible before making a decision.

In the one year that I have served as Vanderburgh County Commissioner, I have had the pleasure of serving with two individuals who possess these qualities. It is for these reasons that I am pleased to endorse both, Ben Shoulders and Cheryl Musgrave, for re-election as Vanderburgh County Commissioner in 2020.
