### Line A Description

Complications of Cervical Spine Fractures  
dementia  
colonic volvulus with perforation  
Acute hypoxic respiratory failure  
Sepsis  
gi bleed  
decompensated cirrhosis  
acute hypoxic respiratory failure  
liver cirrhosis  
prostate cancer  
Shock due to pulmonary hemorrhage  
Metastatic cancer of the tonsil  
Sepsis  
Ischemic cerebrovascular accident  
Alzheimer's disease  
urinary tract infection  
Congestive heart failure, diastolic dysfunction  
cerebrovascular accident  
COVID-19 pneumonia  
Senile Degeneration of the Brain  
acute hypoxic respiratory failure  
Vascular dementia  
probable cardiac arrhythmia  
Aspiration Pneumonia  
bladder cancer  
Acute hypoxic respiratory failure  
pancreatic cancer  
Cardiogenic Shock  
Acute Myocardial Infarction

### Line B Description

Fall at Home  
  
abdominal compartment syndrome  
Non-ST elevation MI  
Aspiration pneumonia  
  
Respiratory failure  
  
cerebrovascular accident with left hemiplegia  
Coronary artery disease  
  
persistent atrial fibrillation  
atherosclerotic coronary artery disease  
Bedridden Due to Sacral Fracture  
  
COVID-19 pneumonia  
  
Hypoxic Respiratory Failure  
Upper Gastrointestinal Bleed

Pneumonia  
lung cancer  
cardiac arrest  
Alzheimer's disease  
metastatic pancreatic cancer  
Respiratory Failure

Cardiopulmonary arrest  
Metastatic breast cancer  
lung mass - unknown if primary lung cancer versus metastatic cancer  
Acute Cardiac Arrest  
glioblastoma of brain  
COVID  
Cardiopulmonary arrest of undetermined etiology  
Ischemic right lower extremity  
Pneumonia  
CEREBRAL INFARCTION  
coronary atherosclerotic heart disease  
respiratory failure  
Acute Myocardial infarction  
Cardiorespiratory failure  
Complication of COVID-19 infection  
failure to thrive from alzheimers dementia  
Myocardial Infarction  
Cardiopulmonary arrest  
metastatic pancreatic cancer  
Cerebral Disruption  
Cardiopulmonary arrest  
Covid pneumonia

Pleural effusion

Diabetes mellitus type 2

Oxygen saturation 40% and asystole on the telemetry noted

Atherosclerotic Cardiovascular Disease

COVID 19 Pneumonia

Aspiration pneumonia

Complications of Hip Fracture

metastatic malignant disease of lungs

COVID-19 Associated Pneumonia

Septic shock

Self-inflicted Gunshot Wound to the Head

Acute hypoxic respiratory failure

Hypercapnic Respiratory Failure  
Chronic obstructive pulmonary disease  
Acute Cardiac Arrest  
pulmonary fibrosis  
emphysema

ventilatory dependent respiratory failure  
Subdural Hematoma

Chronic Obstructive Pulmonary Disease Exacerbation

Hypertensive and Atherosclerotic Cardiovascular Disease

trachea compression due to multinodular goiter with esophageal  
perforation  
Blunt Force Trauma to the Head

## Line C Description

History of pulmonary embolism

Dementia

Squamous cell carcinoma of the lung

Essential hypertension

renal vascular hypertension

Post Operative Acute Renal Failure

Chronic obstructive pulmonary disease

CO2 narcosis that improved with Bipap overnight but patient was removing the mask several times.

Complications of Diabetes

Bacterial Pneumonia

Diabetic ketoacidosis  
Due to a Fall at Nursing Home

COVID-19 infection

Pseudomonas Pneumonia

COVID-19

Blunt Force Trauma to the Chest

untreated goiter

Fall at Home Suffering Head Injury
